PROFESSIONAL SUMMARY

Driven Full-Stack Web Developer experienced in building high-performance, user-centric web applications. Proficient in TypeScript, React 19, Next.js, Express.js, and MongoDB, with expertise in authentication systems (Better-Auth, JWT, Google Auth), payment flows (Stripe), and modern animations (Framer Motion, GSAP, Lenis). Focused on writing clean code, optimizing performance, and exploring Context Engineering. Strong foundation in Data Structures & Algorithms through competitive programming in C, C++, Java, and Python.

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript, TypeScript, React 19, Next.js, React Router, Tailwind CSS, HeroUI, Radix UI
- Backend & Database: Node.js, Express.js, REST APIs, MongoDB, Better-Auth, JWT, Google Auth
- Animations & Tools: Framer Motion, GSAP, Lenis, Matter.js, Stripe, Git, GitHub, Vercel
- Programming & CS Fundamentals: C, C++, Java, Python, Data Structures & Algorithms
- Other: Communication Skill

FEATURED PROJECTS

RecipeHub — Recipe Sharing Platform | <https://recipe-share-three-dusky.vercel.app> | <https://github.com/Pritom-10/Recipe-Share>

- Built a full-stack recipe sharing platform with role-based customer and admin dashboards, supporting recipe creation, editing, liking, favoriting, and reporting.
- Integrated Stripe for premium membership upgrades and individual recipe purchases, and implemented secure JWT authentication with Better-Auth (email/password and Google login), delivering tokens via HTTPOnly cookies with protected dashboard APIs.
- Developed an admin moderation system for managing users, recipes, and reports, including block/unblock, feature-recipe curation, and recipe removal.
- Added live search, category and cuisine filtering with MongoDB \$in queries, server-side pagination, and a full dark/light theme toggle.

Tech Stack: Next.js, React 19, Node.js, Express.js, MongoDB, Better-Auth, JWT, Stripe, Framer Motion, Tailwind CSS, HeroUI.

Studynook — Room Finder Platform | <https://studynook-six.vercel.app> | <https://github.com/Pritom-10/studynook>

- Developed a full-featured accommodation discovery platform with advanced filtering and search functionalities.
- Implemented secure authentication and interactive UI components for a seamless user experience.

Tech Stack: Next.js, React 19, MongoDB, Better-Auth, Stripe, Framer Motion, HeroUI, Recharts, React Toastify, Tailwind CSS.

Livestock Marketplace | <https://livestock-gules.vercel.app> | <https://github.com/Pritom-10/livestock>

- Built a dedicated e-commerce web application for online cattle sales, featuring structured product data and optimized listings.
- Crafted a responsive and user-friendly interface tailored to target audience requirements.

Tech Stack: Next.js, React 19, MongoDB, Better-Auth, Stripe, Tailwind CSS, HeroUI, Radix UI, Recharts.

E-Commerce Website | <https://e-commarce01.netlify.app> | <https://github.com/Pritom-10/E-commarce>

- Built a responsive online store with category-wise product filtering, automated discount calculation, and cart management.
- Implemented authentication services and customer helpline features to streamline user transactions.

Tech Stack: React.js, Tailwind CSS, Axios, Web APIs, MongoDB.

EDUCATION & CERTIFICATIONS

BGC Trust University Bangladesh | 2024 – 2028

B.Sc. (Hons.) in Computer Science & Engineering — CGPA: 3.8 (4th Semester)

Gachhbaria Govt. College | 2021 – 2023

Science — GPA: 4.98

- Leadership in Science Club
- Complete Web Development Course — Programming Hero (Batch 13)
- Executive Member of BGCTUB IT Club
